

Legend

Cedar-wood Infrared Sauna including an integrated system to breathe aroma-enriched oxygen inside or outside the IR cabin, so during the sauna or just sat on a chair outside.

- **Session** 10' for heating + 20' thermotherapy session
- **Needed Area** from 6 to 10 m²
- **Features:** 100% made-in-Italy, Legend is made with high-quality materials (cedar and crystal, Pyrex glass and stainless steel), it has been designed for 2 users and it offers aroma-enriched oxygen in 4 blends. Equipped with a CD/MP3/WMA stereo player and radio system, Legend is decorated with an optical fibres ceiling (6 colours' sequence for a relaxing effect) and is as easy as beautiful: you can adjust the temperature and the timer from inside and outside the cabin as well.
- **Benefits:** the only sauna worldwide with an integrated system to breathe aroma-enriched oxygen. LEGEND let us fight toxins (Infrared sauna function) and the oxygen lack as well (aroma-enriched oxygen inhalation function). 20' into LEGEND are enough to start purifying and regenerating. Thanks to infrareds rays you can sweat three time more cholesterol and fatty acids than what happens into a classic sauna, and you get rid of nickel, cadmium, lead and lactic acid – toxins usually absent in perspiration. Sweating we burn Kcal, but ot burn 1 gram of fat the body needs 5 litres of Oxygen. Considered that toxins are a lot, while oxygen is a little, breathing aroma-enriched oxygen with LEGEND ensures you the greatest wellness experience.
- **Target:** Wellness Centres, Thermal Centres, Spas, Beauty Centres
